GROUP RESTRUCTURE

The changes to the Orbit Group that were planned at the time last year's financial statements were prepared have taken place during the last year.

On 1 October 2007, Thanet Community Housing Association Limited changed its name to Orbit South Housing Association Limited. At the same time, its operations were combined with those of Orbit Bexley Housing Association Limited by means of a transfer of undertakings into Orbit South Housing Association Limited, and the Association purchased the properties located in the South of England previously owned by Orbit Housing Association.

These financial statements reflect the first full 12 months of Orbit South. However the comparative data for 2008 relates to 12 months trading of the original Thanet Community Housing Association Limited and 6 months from 1 October 2007 for Orbit Bexley Housing Association and the properties purchased from Orbit Housing Association.

On 1 April 2008, the parent company changed its name from Orbit Housing Group Limited to Orbit Group Limited. The operations of the Group have been consolidated into four front line service delivery organisations, either with distinct regional structures or particular specialisms. They are Orbit South Housing Association, Heart of England Housing Association, OGL Housing and Heart of England Housing & Care. Responsibility and accountability for driving forward services and working in partnership with our customers rests with the Board and staff of each organisation.

Embedding our new structure is now a key priority. We believe the change provides the platform to drive our ambitions around service delivery, value for money, greater customer engagement and local accountability. It also supports our place shaping agenda, linking new housing provision to investment in communities and our existing stock.

OPERATING AND FINANCIAL REVIEW

SOCIAL LANDLORD'S BUSINESS, OBJECTIVES AND STRATEGY

Orbit South Housing Association Limited owns and/or manages just under 12,000 homes situated in the south of England, predominantly in Kent, Sussex and the London Borough of Bexley.

The Association's strategic objective throughout the year was to make a significant contribution to the communities it served.

The Association works within the overall strategic framework for the Orbit Group, which is developed by all members of the Group in a consultative process.

Ambition for the Group

We have developed a partnership model in which the Orbit Group comprises a number of interdependent organisations known as Group members. Group members collaborate in agreeing our strategic direction and values to achieve a shared vision, for the benefit of our customers and the Group as a whole.

The ambition of the Orbit Group is that of: "Building Brighter Futures for people and communities".

Objectives for the Group

We will achieve our ambition by focusing on three key objectives, which will provide a pathway for us over the coming years: -

- **Customer**
To be a customer first organisation that delivers high quality services that meet customer needs, expectations and aspirations through the development of strong partnerships.
- **Place**
Make a demonstrable difference to improve the communities in which our residents live and to improve life chances and choices for our customers.
- **Organisation**
Be a great organisation that is well-governed, well-managed and financially viable, and that is a great place to work for colleagues while offering value for money to all of our customers.

Since 2003 Orbit has progressively improved its position by being more focussed, better structured and increasingly more effective. A major change programme has been completed to provide an excellent platform for the Group's future.

The culture and behaviour that support our delivery of services are enshrined in our values of:

*Honesty
Innovation
Respect
Excellence
Partnership*

Our ambition and objectives are underpinned by annual priorities. These create a golden thread that aligns our effort, resources and people. They also support our collective and individual aspiration to make a real and demonstrable difference to people's lives.

The various Boards in the Group approve all Business Plans and monitor progress and delivery against targets. In consultation with residents, and with the support of OGL Services, our Group Members will develop and monitor detailed delivery plans. All of our plans have clear milestones and measurable outcomes to guide and confirm progress. The Group will monitor against 17 business critical Performance Indicators.

ORBIT SOUTH HOUSING ASSOCIATION LIMITED

OPERATING AND FINANCIAL REVIEW

The Orbit Group Business Plan 2009 – 2014 sets out the direction for the Group for the next five years. We recognise the level of ongoing change in our sector and the current difficulties faced by the world's financial markets, and the impacts these are likely to have on our proposals.

Orbit South has developed a 5 year Strategic Plan with detailed objectives within each strand of the Group's objectives which also underpins the 30 year Financial Plan for the Association. Orbit South's main focus for the period was to deliver the organisational re-structure and realign resources and review processes to enable us to achieve continuous improvement in performance and in the delivery of services to all residents and to create an efficient regional association.

In line with Orbit Group's strategic priorities, the Orbit South Board has identified the following main priorities for 2009/10:

- To improve the quality and range of services to customers
- To create places where people want to live
- To develop as an organisation, able to meet its ambitions

Progress against plans will be reported upon throughout the year. Reporting will consist of both strategic indicators and operational performance indicators which will be monitored by the Association's Board.

OPERATING REVIEW

Performance in the Year

These Financial Statements are for the first complete financial year for Orbit South. The comparatives for 2008 include the activities of the original Thanet Community Housing Association business for the full year to 31 March 2008 together with the six months activity since 1 October 2007 for the business transferred from Orbit Bexley Housing Association Limited and for the properties purchased from Orbit Housing Association.

During the year the Association achieved a number of key objectives:

- Completed a full restructuring of the business with effect from 1 April 2009, to ensure full alignment of resources to business needs, and leading to ongoing savings.
- Implemented the first stage of the Office Strategy, with the establishment of a new Central Office for the South located at Maidstone.
- Developed a new Orbit South residents' forum called The Residents' Voice. This is to provide an effective link between residents and the Board, and to support our ambition to have customers at the heart of everything we do.
- Focused on dealing effectively with antisocial behaviour for example on an Erith estate, partnership working with residents led to environmental improvements, more robust housing management and residential ownership of local issues resulting in real improvements in quality of life.
- Worked in partnership to improve neighbourhoods. This included working with a Youth Development Service in East Sussex and providing funding and support to the Sedlescombe Youth Project for the development of a new Youth and Community building. This will provide much needed organised activities for youngsters in the area

Financial performance in the year has outperformed budget, with a deficit for the year of £1.72 million compared with a revised budgeted deficit for the combined entity of Orbit South of £2.27 million. The variances were within costs. There were savings of £1.4 million in interest and £0.27 million on depreciation. However, there were increases of £0.5 million in Home Ownership costs, £0.4 million in restructuring and £0.17 million in maintenance.

The development programme has progressed well during the year with 134 new homes being transferred into management in the year. There are a further 326 homes under development and it is anticipated that 180 of these homes will be completed and come into management during 2009/10.

The Audit Commission carried out an Inspection of Orbit South in the Spring of 2008. The service was assessed as 1 star with promising prospects for improvement This was an excellent result in a business that had only completed a merger in October 2007 and was going through a process of immense change. 25 recommendations were made for improvements and the business is on target to complete all requirements by the deadline of July 2009.

ORBIT SOUTH HOUSING ASSOCIATION LIMITED

OPERATING AND FINANCIAL REVIEW

The Orbit Customer Service Centre has been extended to provide services to Thanet residents, and now covers all Orbit South. Customers can make calls at any time during the hours of 8 am to 8 pm, 7 days a week, and the Orbit Response Unit operates 24 hours a day, 7 days a week to support elderly or vulnerable residents. The Customer Service Centre also provides a 24-hour emergency repairs service.

Dynamics of the Social Landlord

The drive to improve delivery and efficiency has continued throughout the last year. The Orbit Group has embraced the Government's efficiency agenda, and is continuing to review and refine the way in which it procures planned and responsive maintenance works and other major areas of expenditure with a view to achieving further efficiencies in this area.

The Association's Asset Management Strategy is linked to the Group's values and mission and covers all of its housing properties. The strategy takes account of both the future likely demand for the homes as well as the actual physical condition and lifecycle of the properties, enabling short, medium and long term planning. The Association has ensured the current focus of its planned maintenance programme meets the requirements of the Decent Homes Standard by the end of 2010. The Association works with a number of partners in carrying out reactive and planned maintenance and works with these partners to achieve effective and efficient delivery of works and value for money.

Orbit South has Rent Plans that allow rent restructuring to be achieved to the timetable previously issued by the Housing Corporation. Thanet Community Housing Association Limited had been given formal approval to waive certain aspects of the rent restructuring assumptions by the Housing Corporation's panel, which met on 21 January 2004. Following the creation of Orbit South Housing Association Limited on 1 October 2007, rent plans for the new Association have been reviewed during 2008/09 and a new Rent Plan was agreed during 2008/09 which is fully compliant with the rent restructuring guidelines.

The Group Orbit Extra programme has been used to support a number of Community Initiatives. One example is a youth inclusion football programme at Larner Road estate in Bexley with Charlton FC. This is flourishing and now hosts one of the national Kickz programmes and we are bidding for Sports Lottery funding. Another is the Paradise Allotment project at Ramsgate, supporting people with learning difficulties with a community allotment and café.

Investment for the future

Orbit South has implemented a new organisational structure with effect from 1 April 2009. This will provide the platform to drive ambitions around service delivery, value for money, greater customer engagement and local accountability.

Orbit South has responded positively to the opportunities arising from the credit crunch and has secured grant funding of £43 million in 2008/09. It already has a pipeline of over 700 properties for delivery in the next 4 years, all of which is incorporated into the Association's long term financial plan. The Orbit Group is an approved Development Partner identified by the HCA in a number of the local authority areas in which we work. New developments are fully compliant with the principles of 'rethinking construction' and meet the minimum requirements of the National Affordable Housing Programme 2008-11.

Orbit South is fully committed to releasing resources through efficiencies and improving performance in order to invest in priority areas. In 2008/09 a new office strategy was also approved and a number of staff have relocated to a regional office in Maidstone. The premises at Bexley Manor Park will be vacated in 2009/10.

The Association was involved in a major Group project to introduce new common IT systems across the whole of the Orbit Group, to improve information and efficiency. The first roll out of new software commenced in March 2009.

OPERATING AND FINANCIAL REVIEW

FINANCIAL REVIEW

Capital structure and Treasury Policy

Housing properties of £393.9 million, other tangible fixed assets of £2.1 million and other net liabilities of £18.3 million are financed by grants £195.2 million (51.6%), loans and long term creditors of £174.8 million (46.3%), pension liability of £1.8 million (0.5%) and accumulated reserves of £5.9 million (1.6%).

The depreciation policy for Orbit South Housing Association Limited is that it depreciates its properties over the average economic life of those properties.

The Association has reviewed its properties for impairment. £36k has been provided for housing properties and £22k for the office at Margate.

The Association has adopted FRS17 (accounting for pensions) in full. The pension liability on the balance sheet at 31 March 2009 was £1.8 million (2008: £1.1 million).

Treasury Policy

From 1 October 2007, the major loans of all the Group Members at that date were re-routed through a new group treasury vehicle, Orbit Treasury Limited. The treasury vehicle has facilitated changes to the group structure and is supported by group cross-collateralisation. The benefits include improved efficiencies in terms of both streamlined and efficient treasury procedures and strategy, as well as reduced average interest rates and reduced compliance work.

During the year, Orbit Treasury Limited entered into three new swaps with two organisations. The notional value of these transactions is £30 million and comprises three 30-year £10 million swaps, two of which are linked to RPI and one is an interest rate swap which is callable after 3 years. All of these transactions were in sterling.

In June 2009, Orbit Treasury Limited extended the group facility with Abbey National Treasury Services by a further £50 million.

The Orbit Group Board recognises that the fluctuations in the Association's debt requirement arising from sales and new developments in particular make it important to regularly review its treasury policy. The treasury function operates within a framework of clearly defined Board approved policies, procedures and delegated authorities. The fundamental principle underlying the Association's approach is to treat treasury activities as a means of controlling risk rather than for profit generation. The Association has Rules that allow the use of derivatives and the relevant accounting policies are included in note 1 to the Financial Statements.

The treasury policy adopted by the Board requires the Association to:

- only use institutions or investment instruments with high credit ratings
- limit exposure to individual institutions when investing
- limit sensitivity to market fluctuations by adopting a mix of fixed and floating interest rates
- limit the use of third party derivatives
- limit refinancing risk by means of a good spread of debt repayment terms

The treasury policy adopted by Orbit Group Limited was a Group policy, and has been adopted and continued by Orbit Treasury Limited.

Cash flow and liquidity

The cash inflow from operating activities during the year was £3.1 million (2008: £11.9 million).

The principal source of both operating cash inflow and outflow remained that of income from the provision of housing accommodation and associated operating costs.

ORBIT SOUTH HOUSING ASSOCIATION LIMITED

OPERATING AND FINANCIAL REVIEW

Going concern

After making enquiries the Board has a reasonable expectation that the Association has adequate resources to continue in operational existence for the foreseeable future. For this reason, they have adopted the going concern basis in the financial statements.

Conclusion

The successful creation of Orbit South as a single legal entity has provided a platform from which we are delivering more efficient and effective services to residents, and investing more effectively in neighbourhoods across the region.

Board's Conclusion

The Board has received the Annual Report on Internal Controls Assurance and has conducted its annual review of the effectiveness of the system of internal control. In addition, the OS Board has monitored and considered the outcomes arising as a consequence of the Association's Risk Management process and the corresponding reports from officers on the associated control environment.

The Board confirms that the process for identifying, evaluating and managing significant risks faced by the Association is ongoing and has been in place throughout the year under review, up to the date of the annual report, and is regularly reviewed by the Board. There is sufficient evidence to confirm that adequate systems of internal control existed and operated throughout the year. ORBIT SOUTH HOUSING ASSOCIATION LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 31 March 2009

1 PRINCIPAL ACCOUNTING POLICIES

Legal Status

Orbit South Housing Association Limited is incorporated under the Industrial & Provident Societies Act 1965 and registered with the Housing Corporation as a Registered Social Landlord as defined by the Housing Act 1996. The Parent Body is Orbit Group Limited.

Basis of Accounting

The financial statements have been prepared in accordance with applicable Accounting Standards and Statements of Recommended Practice of the United Kingdom. The Financial Statements comply with the Industrial and Provident Societies Acts 1965 to 2002, Schedule 1 to the Housing Act 1996, the Accounting Requirements for Registered Social Landlords General Determination 2006, and the Statement of Recommended Practice published by the National Housing Federation in 2008 "Accounting for Registered Social Landlords". The Financial Statements are prepared on the historical cost basis of accounting. In 2006-07 the Association adopted FRS17 Retirement Benefits.

Group Services

The Association has taken advantage of the exemptions available under FRS8 (Related Party Transactions) and has not disclosed transactions with the Parent undertaking as consolidated financial statements are available from the Registered Office.

A range of services are provided to Orbit South Housing Association Limited by the Parent Body Orbit Group Limited, as set out in the Intragroup Agreement between the two Associations. During the year the Association also had service agreements with other Associations within the Group particularly in respect of receipt and delivery of housing management services.

With the exception of costs capitalised as development costs, all costs incurred through this agreement are written off to the Income and Expenditure Account in the period in which they are incurred.

Turnover

Turnover represents rental and service charge income receivable, revenue grants from local authorities and the Housing Corporation, and other income. All income is recognised on a receivable basis.

Housing Properties

- Housing properties

Housing properties comprise the cost of acquiring land and buildings, development costs and attributable interest charges incurred during the development period and the capital element of expenditure incurred in respect of the stock improvement programme.

Freehold land is not depreciated. Housing properties are shown at cost. Depreciation is charged so as to write down the value of freehold properties on a straight-line basis over their estimated useful economic lives. General needs houses and flats and sheltered properties are all believed to have useful economic lives of between 75 and 100 years. Acquired properties are depreciated over their estimated remaining economic lives.

- Non housing assets

Non-housing properties are stated at cost, less accumulated depreciation and capital grants. Depreciation is charged on a straight line basis over the expected economic useful lives of the assets at the following annual rates:

Freehold offices and commercial premises	2%
Computer equipment	20%-25%
Fixtures, Fittings and Other Equipment	20%-25%

Freehold offices are shown at cost less depreciation.

The useful economic lives of all tangible fixed assets are reviewed annually.

ORBIT SOUTH HOUSING ASSOCIATION LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 31 March 2009

1 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Social Housing Grant (SHG) and Other Grants

Where Social Housing Grant (SHG) from the Housing Corporation or Local Authorities, or capital grants from other bodies, have been received as a contribution towards the capital costs of a scheme, such grants are shown on the face of the balance sheet as a deduction from the cost of housing properties.

Where SHG is received on items treated as revenue expenditure, e.g. elements of major repair expenditure, it is treated as a revenue grant and credited to the income and expenditure account and disclosed separately within the turnover note.

Social Housing Grant may be repayable in certain circumstances, even where it has been treated as a revenue grant for accounting purposes, such as where the development of a property is not completed.

At the balance sheet date if the SHG or other grants received or receivable on the development programme as a whole are greater than gross cost, the difference is treated as included in creditors falling due within one year and disclosed as SHG and other grants in advance.

Where SHG is to be recycled or repaid on the disposal of housing properties, the SHG to be recycled or repaid less the SHG relating to the disposal is treated as abated SHG and treated as a surplus or deficit on disposal.

Capitalisation of Interest and Administration Costs

Interest on loans financing development has been capitalised. Administration costs relating to development activities are capitalised only to the extent that they are incremental to the development process and directly attributable to bringing the property into their intended use.

Impairment

Reviews for impairment of housing properties are carried out on an annual basis and any impairment in an income generating unit is recognised by a charge to the Income and Expenditure Account. Impairment is recognised where the carrying value of an income generating unit exceeds the higher of its net realisable value or its value in use.

Leased Assets

Where assets are financed by leasing agreements that give rights approximating to ownership, they are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable during the lease term. The corresponding leasing commitments are shown as obligations to the lessor. Lease payments are treated as consisting of capital and interest elements and the interest is charged to the income and expenditure account using the straight-line basis method. Rentals paid under operating leases are charged to the income and expenditure account on a straight-line basis over the life of the lease.

Pension Costs

The association operates a defined benefit funded pension scheme. The assets of the scheme are held separately from those of the company in an independently administered fund. The requirements of FRS17 Retirement Benefits are now fully reflected in the financial statements and associated notes. Note 7 provides a summary of the pension valuation report, together with prior year statements which state last year's revenue and reserves. For funding purposes, surpluses or deficiencies are dealt with as advised by the actuary.

For defined benefit schemes the amounts charged to operating surplus are the current service costs and gains and losses on settlements and curtailments and are included as part of staff costs. Past service costs are recognised immediately in the income and expenditure account if the benefits have vested. If the benefits have not vested immediately, the costs are recognised over the period until vesting occurs. The interest cost and the expected return on assets are shown as a net amount of other finance costs or credits adjacent to interest. Actuarial gains and losses are recognised immediately in the statement of total recognised gains and losses.

The Parent Body participates in the Social Housing Pension Scheme and offers a Stakeholder pension scheme; further details of both can be found in the Group Financial Statements. The cost of providing retirement pensions and related benefits is charged to management expenses. The disclosures in the Group's Financial Statements follow the requirements of FRS 17.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 31 March 2009

1 PRINCIPAL ACCOUNTING POLICIES (CONTINUED)

Cyclical Repairs and Maintenance

Due to the number of properties held and the establishment of regular programmes of repair and maintenance, the Association does not make provision for future works but charges actual costs incurred to the Income and Expenditure account.

Disposal of Housing Properties

Under the terms of the original transfer agreement, between Thanet District Council and Thanet Community Housing Association Limited (now Orbit South) proceeds from right to buy sales within those originally transferred properties are shared with Thanet District Council. On completion of a right to buy sale, the full proceeds are taken to the Income and Expenditure account. The share payable to the Council is treated as a cost of sale. A similar agreement exists between Bexley Council and Orbit South. Proceeds from other right to buy sales are retained by Orbit South.

Works to Existing Housing Properties

Expenditure on housing properties which increases the net rental stream over the life of the property is capitalised. An increase in the net rental stream may arise through an increase in the rental income, a reduction in future maintenance costs, or a significant extension of the life of the property. All other costs are classified as maintenance and are charged to the Income and Expenditure Account in the year in which the work is undertaken. No depreciation charge is made during the year in which a property comes into management, nor in the year of sale.

Supporting People Income and Costs

Supporting People charges are levied as a separate charge and not as part of rent. The income and related costs are therefore shown within Other Social Housing Activities.

Disposal Proceeds Fund

Voluntary Purchase Grants net of disposal proceeds are credited to this fund which appears as a creditor until spent.

Value Added Tax

The Association is party to a group registration for VAT. All amounts disclosed in the Financial Statements are inclusive of non-recoverable VAT.

Taxation

The Association was accepted as a charity for taxation purposes by HMRC with effect from 28 January 2003 and no taxation is payable. The Association's activities are exempt from taxation.

Designated Reserves

The Association designate those reserves that have been set aside for uses that prevent them, in the judgement of the Board, from being regarded as part of the free reserves of the Association.

7 PENSION COSTS

(a) Local Government Pension Scheme - KCC

The Association participates in The Local Government Pension Scheme (LGPS defined benefit statutory scheme) which is administered by Kent County Council (KCC). The Association has adopted accounting standard FRS 17 'Retirement Benefits' since March 2007. The impact of this standard has been reflected throughout the financial statements. Prior year comparatives have been restated where appropriate.

The difference between the fair value of the assets held in the Association's defined benefit pension scheme and the scheme's liabilities measured on an actuarial basis using the projected unit method are recognised in the Association's balance sheet as a pension scheme asset or liability as appropriate. Changes in the defined benefit pension scheme asset or liability arising from factors other than cash contribution by the Association are charged to the Income and Expenditure account or the statement of total recognised surpluses and deficits in accordance with FRS 17 'Retirement Benefits'.

Total employer contributions paid to the scheme for the year were £260k (2008: £283k).

Due to changes to the standard asset valuation which has moved from a fair value to a realisable value (bid basis) there has been a £20k impact on the balance sheet in 2008/09.

Triennial actuarial valuation

Triennial actuarial valuations of the LGPS are performed by an independent, professionally qualified actuary using the projected unit method. The projected figures do not make allowance for the effect of members electing to exchange part of their LGPS pension for additional tax-free cash at retirement, as permitted from April 2005. The most recent valuation of KCC's scheme was completed as at 31 March 2007, with the next formal valuation due for the year ended 31 March 2010.

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended 31 March 2009

7 PENSION COSTS (CONTINUED)

The major financial assumptions used by the actuary in the FRS 17 valuation are:

	2009	2008	2007
Rate of increase in salaries	4.6%	5.1%	4.7%
Rate of increase in pensions in payment and deferred pensions	3.1%	3.6%	3.2%
Discount rate applied to scheme liabilities	6.9%	6.9%	5.4%
Inflation assumption	3.1%	3.6%	3.2%

The inflation assumption is based on consideration of the difference in gross redemption yields of traditional and index-linked gilt edge securities as at 31 March 2009.

Salary increases are assumed to be 1.5% (2008: 1.5%, 2007: 1.5%) more than assumed inflation, in line with the assumption used in the latest formal valuation of the Fund.

(c) Local Government Pension Scheme – Bexley London Borough

Orbit South Housing Association Limited also participates in the Bexley London Borough Pension Fund, which is a defined benefit scheme. The Association has adopted the provisions of FRS 17 'Retirement benefits' in preparing these accounts.

Due to changes to the standard asset valuation which has moved from a fair value to a realisable value (bid basis) there has been a £4k impact on the balance sheet in 2008/09.

The next tri-ennial valuation is for the year ending March 2010.

	12 months to 31/03/09	12 months to 31/03/08	6 months to 30/09/07	12 months to 31/03/07

Discount rate applied to scheme liabilities	7.10%	6.10%	5.40%	5.40%
Inflation assumption	3.30%	3.60%	3.10%	3.10%

The assumptions used by the actuary are the best estimates chosen from a range of possible actuarial assumptions, which, due to the timescale covered, may not necessarily be borne out in practice.

Pension Liability

The fair value of the scheme's assets, which are not intended to be realised in the short term and may be subject to significant change before they are realised, and the present value of the scheme's liabilities, which are derived from cash flow projections over long periods and thus inherently uncertain, are:

18 HOUSING LOANS AND FINANCE LEASE OBLIGATIONS

On 28 September 2007, the majority of the loans of the Orbit Group, including those of Orbit South, were re-routed through a separate treasury vehicle, Orbit Treasury Limited (OTL). OTL is a trading company limited by shares and is a wholly owned subsidiary of Orbit Group Limited. All members of the Orbit Group entered into a fully cross-collateralised structure on 28 September 2007. OTL borrows money on behalf of the Group and onlends to individual operating associations as required. The loan is repayable half yearly in instalments.

The Loan from Orbit Treasury Limited is secured by fixed charges on individual properties. The interest rates ranged between 4.19% and 5.15% for the year ended 31 March 2009.

The Greenwich Natwest loan is secured by fixed charges on individual properties. The loan is repayable half yearly in instalments. The interest rates are between 10.7% and 11.9% and the final instalments fall to be repaid in 2026 and 2032. The Parent has agreed for the next 4 years to reimburse Orbit South the difference between these higher interest rates and the average interest rate for loans made through OTL. In 2007/08 this equated to a donation of £804k.
